

## Electric Chain Hoists Enhanced Features

### UL® Listed\*

Certified and listed to UL 1340 "Standard for Hoists."

### Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

### Perpendicular Orientation

PT push trolley mount and MR motorized trolley mount hoists are configured as perpendicular to the beam on single fall models. Parallel mount is available as an option.

### High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

### Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

### Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces standard on most models.

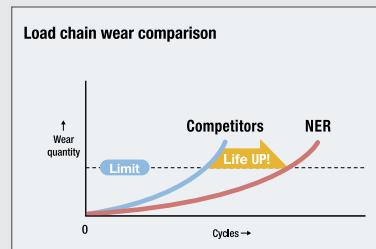

### Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

### Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

### Limit Switches

Low-profile upper and lower limit switches are standard.

### Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

### Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

### High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

### Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

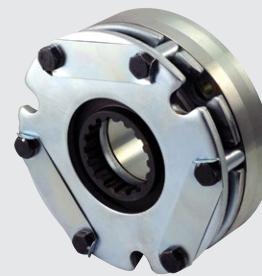

### Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

### “The Guardian” Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. **10 year hoist brake warranty.**

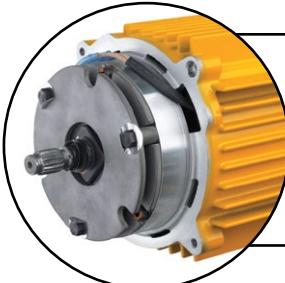

### Pendant Controls

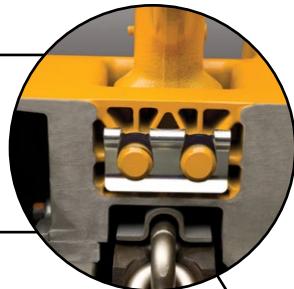

Ergonomic design for operator comfort. Red button emergency stop is standard on all 4-button and on 2-button dual speed pendants.

## Electric Chain Hoists

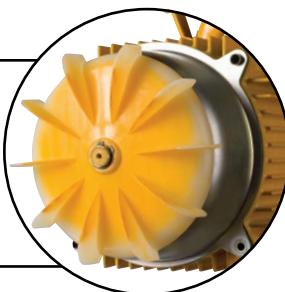

**"The Guardian": Smart Brake Technology**  
Revolutionary DC current motor brake with electrical failsafe design. **10 year warranty.**

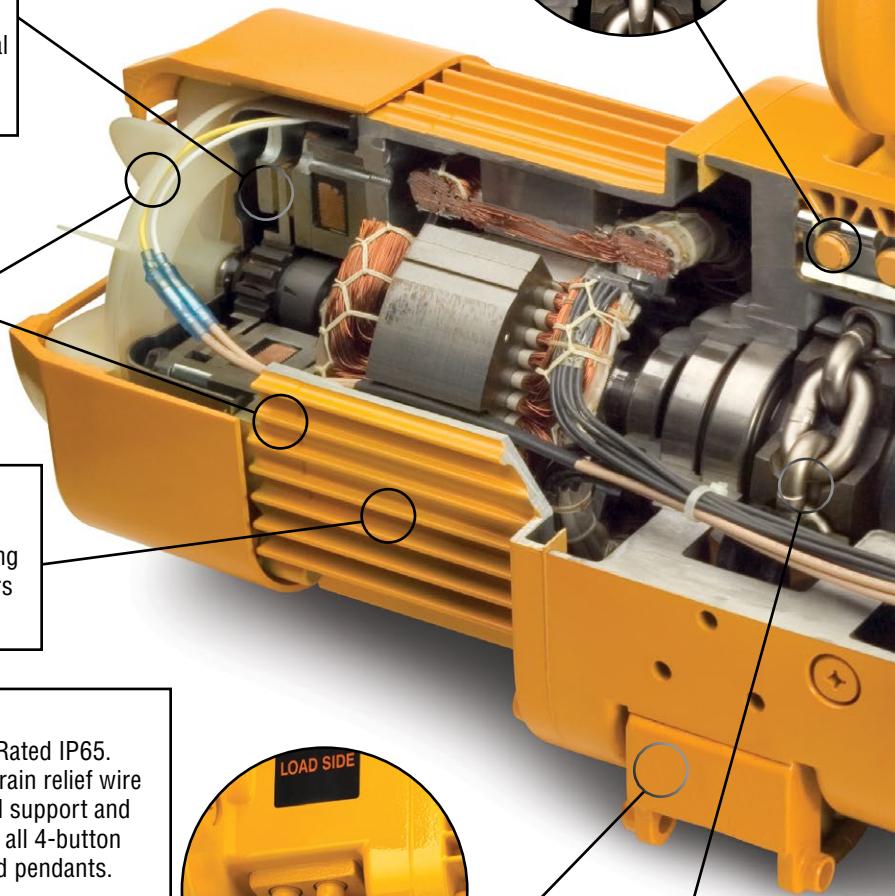

### Suspension

Hoist is easily changed from hook to lug mount configurations with external suspension pins on most models.

**Totally Enclosed Fan Cooled (TEFC) Motor**  
Engineered motor fin, fan blade and fan cover design cools the motor and brake.

### Extreme Duty Motor

Increased performance through 60 minute duty rating, H4 classification, Class B insulation, cooling fins and standard thermal motor protection. Offers higher horsepower than most competitors.

### Durable Push Button Pendant

Easy to use, one-handed operation. Rated IP65. Standard control voltage is 110V. Strain relief wire is molded to pendant cord for added support and dependability. E-stop is standard on all 4-button pendants and on 2-button dual speed pendants.

**Upper/Lower Limit Switches**  
Low profile upper and lower limit switches provide excellent headroom.

### Load Sheave

5 or 6 deep-groove pockets fully support the load chain during operation. Reduces vibration and chain wear. Provides true vertical lift.

### Forged Carbon Steel Hooks

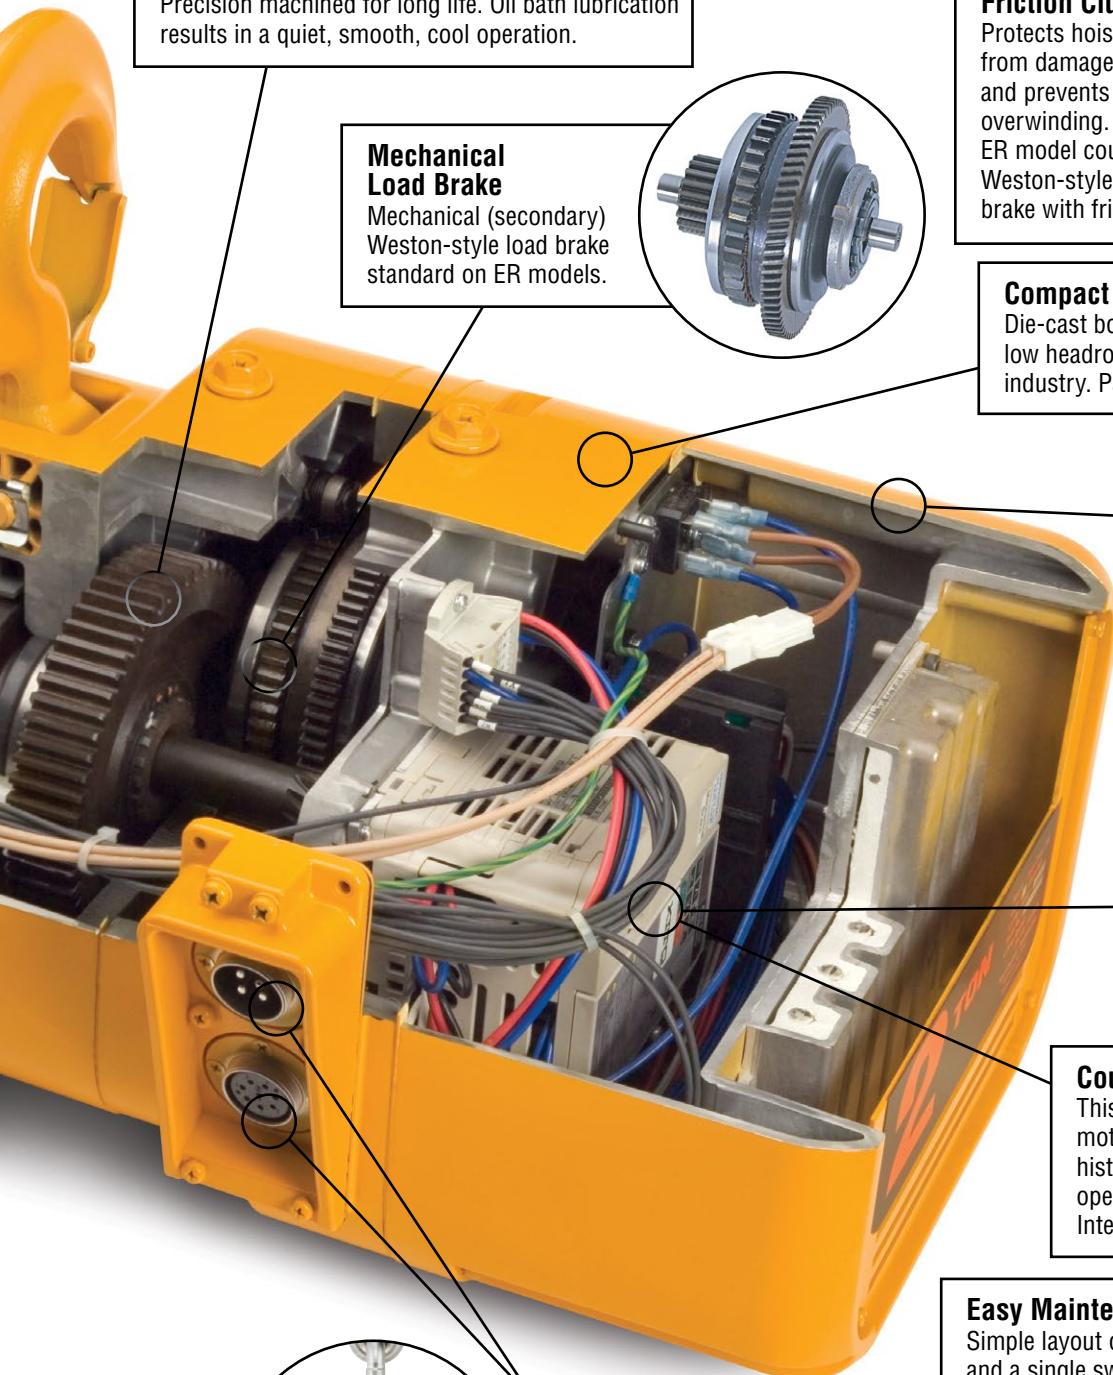

Under excessive loads will open gradually and not fracture. Ball bearings produce smooth rotation. Bottom hook will swivel 360 degrees. Heavy-duty hook latches are standard.

### Unique Chain Guide

Provides quiet and smooth guiding of chain. Easily replaced without hoist disassembly. Heavy cast iron construction for improved wear versus stamped steel design offered by many manufacturers.

**Heat Treated Helical and Spur Gears**

Precision machined for long life. Oil bath lubrication results in a quiet, smooth, cool operation.

**Mechanical Load Brake**

Mechanical (secondary) Weston-style load brake standard on ER models.

**Long Life Friction Clutch**

Protects hoist from damage and prevents overwinding. ER model couples Weston-style load brake with friction clutch.

**Compact Aluminum Body**

Die-cast body is lightweight and offers low headroom – one of the best in the industry. Paint is electrostatically applied.

**Completely Sealed Body**

Suitable for both indoor and outdoor applications, including harsh environments. (Consult Owner's Manual for details.) Gaskets throughout the hoist provide for an IP55 rating.

**Contactors**

Mechanically interlocked heavy-duty contactors (single speed).

**Variable Frequency Drive**

Dual speed controls via "under-the-cover" variable frequency drive standard. Optional 2-step and 3-step infinitely variable control.

**Count Hour Meter**

This maintenance feature tracks motor starts, running time and usage history by instant digital display. Meter operates independently of the hoist. Integral to VFD on dual speed models.

**Corrosion Resistant Load Chain**

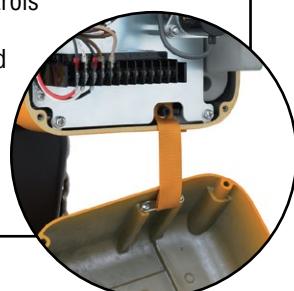

Nickel-plated, Grade 80, DIN chain for superb durability and strength.

**Plug-in Connections**

Saves valuable time on set up and maintenance. "Quick disconnect" replaces typical competitive hard-wired designs.

**Easy Maintenance Control Panel**

Simple layout of controls and a single swing-down panel. Captured control cover provides standard wiring diagram and allows fast on-site access.

**Operating Conditions**

Recommended for -4° to +104° F and humidity of 85% or less.

## NERM/ERM Electric Chain Hoists with Motorized Trolleys

**NERM/ERM020L-L/S**  
(Shown with optional  
canvas chain container)

The MR Series of electric trolleys further expand the capabilities of our NER/ER line of electric hoists. These trolleys feature an innovative side guide roller system that results in very smooth travel along the beam.

### Features and Benefits

#### UL® Listed\*\*

Certified and listed to UL 1340 "Standard for Hoists."

#### Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

#### Perpendicular Orientation

MR motorized trolley mount hoists are configured as perpendicular to the beam. Parallel mount is available as an option.

#### Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

#### Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces.

#### High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

#### Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

#### Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

#### Limit Switches

Low-profile upper and lower limit switches are standard.

#### Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

#### Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

#### High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

#### Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

#### Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists and trolleys. Speed ratio is 6:1 with adjustability up to 12:1.

#### "The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

#### Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 4-button pendants.

### Standard Motorized Trolley Specifications

#### Capacity Range

1/8 Ton – 5 Ton  
(See page 34 for 8 – 20 Ton)

#### Standard Voltage

208-230/460-3-60  
Optional voltages available  
Dual speed models are not reconnectable

#### Control Voltage

110V (optional 24V)

#### Duty Cycle\*

Single Speed – 30 Min.  
Dual Speed – 30/10 Min. with VFD

#### Classification\*

ASME H4  
ISO M5 or M4  
FEM 2M or 1Am

#### Ratings

Trolley – IP55  
Pendant – IP65

#### Standard Pendants

4-button (momentary contacts) with emergency on/off (maintained contacts)

#### Shafts

Standard shafts fit wide flange range  
Longer shafts for wider beams  
Spacers for easy adjustments

#### Drop Stops

Standard

#### Bumpers

Standard

#### Wheels

All steel  
Shielded ball bearings  
Fit flat or tapered beam flange

#### Standard Power Supply Length

30' (longer lengths available)

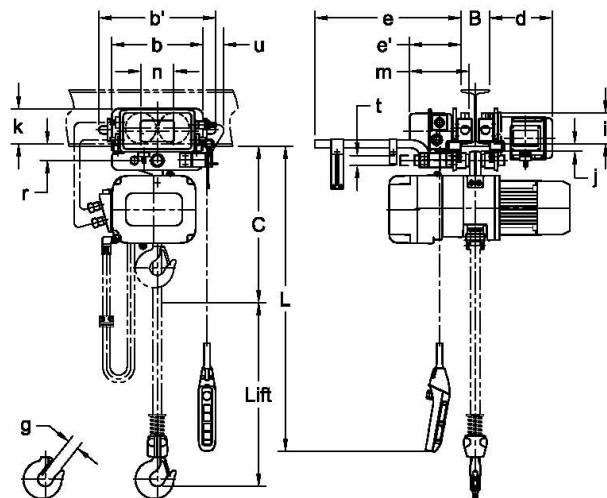

#### Standard Pendant Drop

4' less than lift (longer drops available)

\*See page 59 for additional information.

\*\*Most models shipped with UL listing. Contact Customer Service for listed models.

**The 3 Ton (N)ERM030L is the previous hoist model.**

Hoist speed ratio is 6:1 with adjustability up to 12:1.

Trolley speed ratio is 6:1 with adjustability up to 10:1.

## MR Motorized Trolleys

### Pull-Rotor Motor Brake

Extremely durable and reliable, this advanced design furnishes precision load control, deceleration and long life.

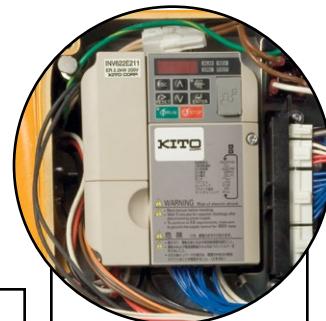

### Built-In Drop Stops

Important feature provides additional security for the operator and the equipment.

### Heavy-Duty Motor

Designed for top performance with high-horsepower, 30-minute duty rating, cooling fins and standard thermal motor protection. Motor is totally enclosed, non-ventilated (TENV).

### Variable Frequency Drive

Dual speed controls via "under-the-cover" variable frequency drive standard.

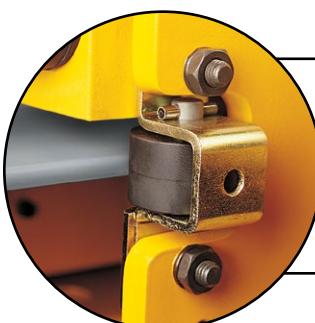

### Sealed Protection

Appropriate for both indoor and outdoor applications, including harsh environments. (Consult owner's manuals for details.) Gaskets throughout the trolley provide for an IP55 rating.

### Rubber Bumpers

Standard feature on all motorized trolleys. Provides protection from collisions. Complies with ASME standards.

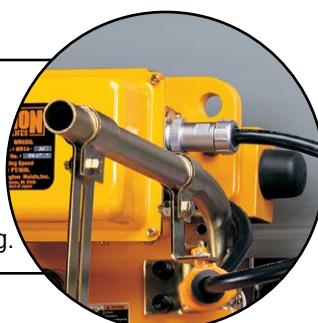

### Side Guide Rollers

Four ball bearing supported rollers enhance smooth trolley motion and reduce wear of the wheels and beam.

### Cable Support Arm Assembly

Convenient "tow bar" is standard component that gives support and guides the power supply festooning.

### Pendant Plug-In Connections

Saves valuable time on setup and maintenance. "Quick disconnect" replaces typical competitive hard-wired designs.

## **NERP/ERP and NERG/ERG Electric Chain Hoists with Push or Geared Trolleys**

**NERP/ERP010S**  
(Shown with optional  
canvas chain container  
and rubber bumpers)

Mounting our NER/ER Series hoists to either a PT push or GT geared trolley will create an easy and economical method of transporting the load. This combination is ideal for small workshops and infrequent moves.

### **Features and Benefits**

#### **UL® Listed\*\***

Certified and listed to UL 1340 "Standard for Hoists."

#### **Easy Access Suspension**

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

#### **Perpendicular Orientation**

PT push trolley mount hoists are configured as perpendicular to the beam. Parallel mount is available as an option.

#### **Green Initiative**

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

#### **Notched Hook and Latch System**

Provides positive closing and improves resistance against lateral forces.

#### **High Air Flow**

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

#### **Unique Load Sheave**

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

#### **Extended Chain Life**

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

#### **Limit Switches**

Low-profile upper and lower limit switches are standard.

#### **Contactors**

Mechanically interlocked, heavy-duty contactors on single speed models.

#### **Friction Clutch and Load Brake**

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

#### **High Strength, Corrosion and Wear Resistant Load Chain**

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

#### **Standard Count Hour Meter**

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

#### **Dual Speed VFD**

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

#### **"The Guardian": Smart Brake Technology**

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

#### **Pendant Controls**

Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

### **Standard Trolley Specifications**

#### **Capacity Range**

PT Push – 1/8 Ton – 5 Ton  
GT Geared – 1/8 – 5 Ton  
(See page 38 for 8 – 20 Ton)

#### **Shafts**

Standard shafts fit wide range  
Longer shafts for wider beams  
Spacers for easy adjustments

#### **Drop Stops**

Standard

#### **Bumpers**

Optional

#### **Standard Hand Chain Drop**

On geared trolleys  
2' less than lift  
(longer drops available)

#### **Wheels**

All steel  
Sealed ball bearings  
Fit flat or tapered beam flange

#### **Standard Hoist Pendant Drop**

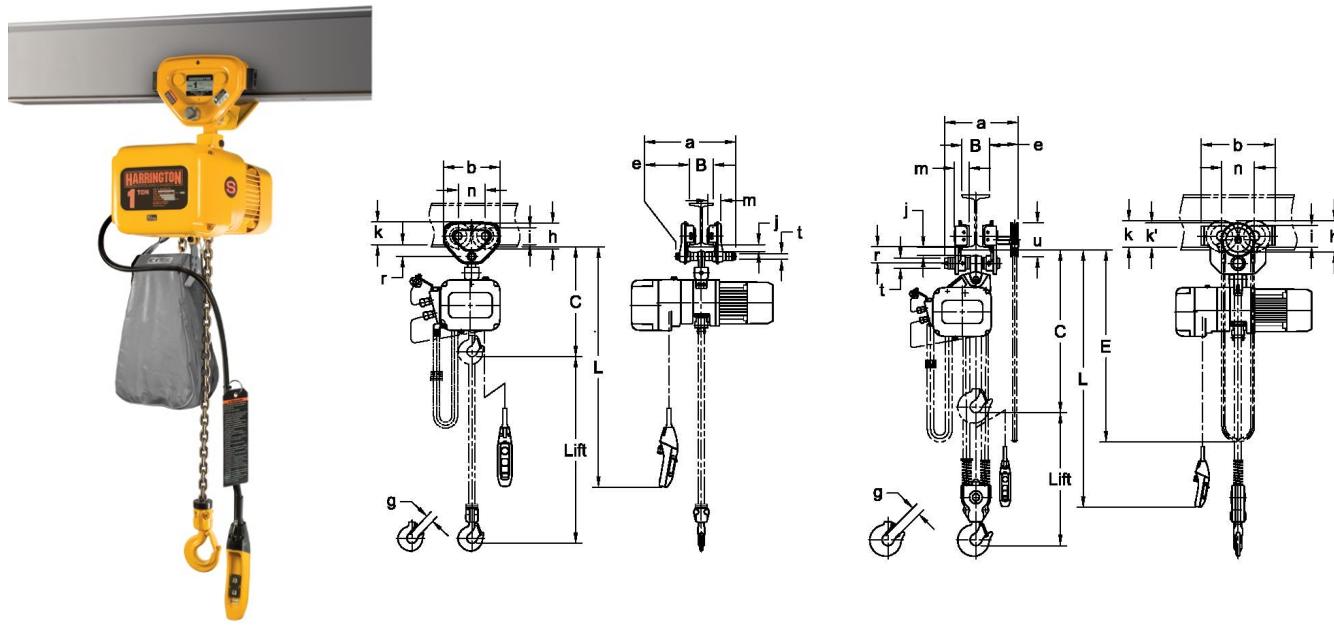

4' less than lift  
(longer drops available)

#### **Standard Hoist Power Supply Length**

15' (longer lengths available)

#### **Standard Pendants**

Single speed: 2-button  
(momentary contacts)  
Dual speed: 2-button  
(momentary contacts)  
with emergency On/Off  
(maintained contacts)

**NERP/ERP10S**  
(Shown with optional  
canvas chain container  
and rubber bumpers)

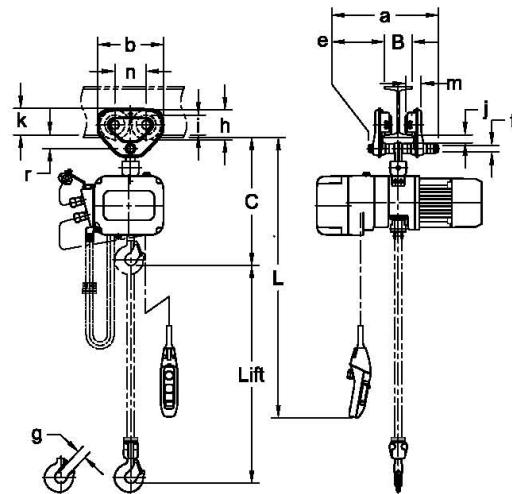

Figures in parentheses are data for geared trolley.

\*The (N)ERP(ERG)030LD listed are the previous hoist models. Refer to Harrington catalog C-EPH for features and benefits.

\*\*Minimum Flange Width for curved beam: 1 Ton Push and 1/8 to 1 Ton Geared = 2.87 in.

3 Ton Push or Geared = 3.50 in

Speed ratio is 6:1 with adjustability up to 12:1.
