Options for Covering the Eyes and Body

Cordura – light weight fabric available in a sewn tube or with Velcro closure. Available on the eyes or the body of the Tow Ropes.

Rhino Guard – Heavy Duty Fabric made with a blend of Nylon and Dyneema®, available in sewn tube or Velcro Closure. Also available on the eyes or the body of the Tow Ropes.

Braided Cover – We have the ability to braid over all the Tow rope or just sections of the tow rope with our Horizontal braiding machines. We can braid with either Polyester or HMPE for the ultimate abrasion protection of your Tow Rope. We can also coat the braided cover with our FiberLock abrasion resistant coating that is available in various colors.
